

Ovations for the Cure Butterfly Bangle Program Sponsorship

This Patient Program provides patients and survivors with an elegant, silver-plated bangle bracelet adorned with a teal blue crystal bead, with sterling imprints on each side. Side one says "Princess" and side two says "Ovations". This bracelet design is an Alex and Ani-style bangle bracelet adorned with butterflies and teal crystals.

The bracelets are a gift to patients and survivors to guide them on their road to recovery and celebrate their treatment completion. We feel these women have already paid a heavy price, and we would like to give them hope through their return to health and celebrate their victories with them.

Because of the cost of this program, Ovations is always looking for and welcoming partnerships to help us purchase these bracelets.

A \$5,000 sponsorship will allow us to ship bracelets to 150 women nationwide. For these 150 bracelets, we will include any information/handouts you would like. Your logo would also be added to our homepage as a partner.

With each shipment, a personal letter from Ovations is sent to each woman to let them know that we are here and ready to support those who need our help. Your company name and appreciation of your support will be mentioned in this letter.
